BEST USB CABLE

**FURUTECH FORMULA 2**

## Best USB cable

Furutech Formula 2 **£55**

With more and more music now in the digital domain, the USB cable is correspondingly important. And Furutech's speedily monickered Formula 2 is a fine example. Connected to our reference DAC, it helped our set-up develop greater insight and precision, at the same time allowing a wider soundstage with an increased bass weight. This USB cable could make a difference to your digital performance; this is an essential upgrade option to audition.

## **Furutech Formula 2 |** **USB cable | £55/1.2m** A digital music upgrade?

**WHAT HI\*FI?**  
**SOUND AND VISION**

**If you want** to experiment with getting yet more performance from your USB DAC, try hooking it up with one of these Furutechs.

In our tests we found this well-built cable - connected to an Audiolab M-DAC - enabled our digital music system to deliver extra bass, insight and depth than more basic designs. It even trumped Wireworld's Ultraviolet 5 cable, our previous favourite.

At £55, it seems a luxury, but if you're serious about digital sound, then you owe it to your ears to at least have a trial listen.

**Rating ★★★★★**

A cable to try if you're getting serious about your digital music set-up
